

HOLY TRINITY DINTING CRICKET CLUB

Changing and Showering Policy

For players under the age of 18 playing in adult teams:

- If adults and children need to share a changing facility, the Club must have consent from parents that their child(ren) can share a changing room with adults in the Club.
- Adults must change at different times to children before, during and after matches.
- Adults must not shower at the same time as children.
- Mixed gender teams should have access to separate male and female changing rooms where possible. Where separate changing rooms are not available, male and female players must change at different times.
- Mobile phones must not be used in changing rooms.

If children are uncomfortable changing or showering at the Club, we suggest they change and shower at home.
